

East Howe Lane Bus Shelter

The possibility of a bus shelter in East Howe Lane comes closer following a public consultation with bus users and residents. Following a request from a resident in Green Lane I spoke with officers regarding the possibility of a bus shelter. Residents told me they wanted to start their journey into town warm and dry, a simple request and one that I am happy to say could become a reality. The final results of the consultation should be released next week.

Hill View Road

I'm very pleased to say the final planting of shrubs has been completed on the corners of Broughton Avenue and Redhill Drive. Hopefully the plants will survive the cold weather and look spectacular in the summer.

There is more work scheduled for New Parade where shrubs will be cleared and a community notice board placed to keep everyone informed of events happening in the area. This work is being funded by local traders.

Redhill Café

Working with Youth workers, Redhill Pavilion Café has allowed the youth service the use of the Pavilion on a Thursday evening. This is proving very popular with the local youths, who following meetings had asked for somewhere to go of an evening.
